

Mackay 382835

Description

370mm calf high pull on style waterproof underground mining boot with padded collar and bump cap.

Upper Materials

Cowhide water proof fullgrain leather and stitched in abrasion resistant thread. High performance, water proof lining. Internal Metatarsal Guard to protect the arch and forefoot.

Toe Cap

200J Safety Steel.

Lining Materials

This boot is lined with Spacerknit®, which is a soft, non-abrasive, hydrophobic material that wicks perspiration away from the foot, enabling the skin to remain cool and dry.

Full Innersole

A full length footbed that is inserted into the footwear to offer additional support and comfort. This footbed is made from soft polyurethane that will retain its shape and thickness throughout the life of the boot.

Insole

Heavy-duty, flexible anti-bacterial non-woven insole.

Midsole

Directly moulded Polyurethane midsole for greater shock absorption. Penetration Resistant midsole.

Outsole

Oil and acid resistant nitrile rubber outsole. Heat resistant to 300°C.

Trisole™ Comfort Technology Soling System

The Steel Blue soling system is a patented three density soling system that offers a high level of comfort, shock absorbency and energy return. The system uses PORON® as energy absorbing pads under the pressure points of the foot to give the wearer superior comfort and offers similar shock absorbency and comfort to sports footwear.
